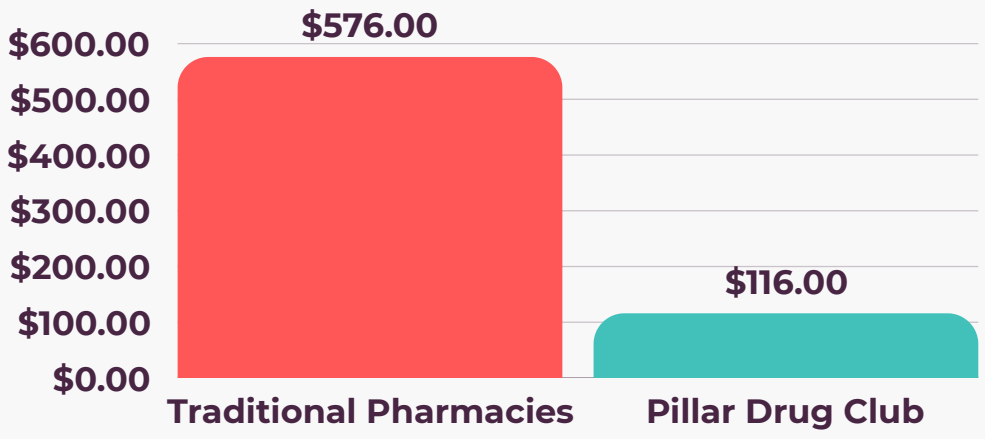
PILLAR
DRUG CLUB

THE PROBLEM

Employers overpay for prescriptions due to hidden fees and markups. Traditional pharmacy models are complex, costly, and inefficient, leading to unpredictable expenses and low employee adherence.

Annual OOP of +4 RXs/ patient



Foundation Plan

Covers pharmacy services (labor + shipping) for 1-4 RXs

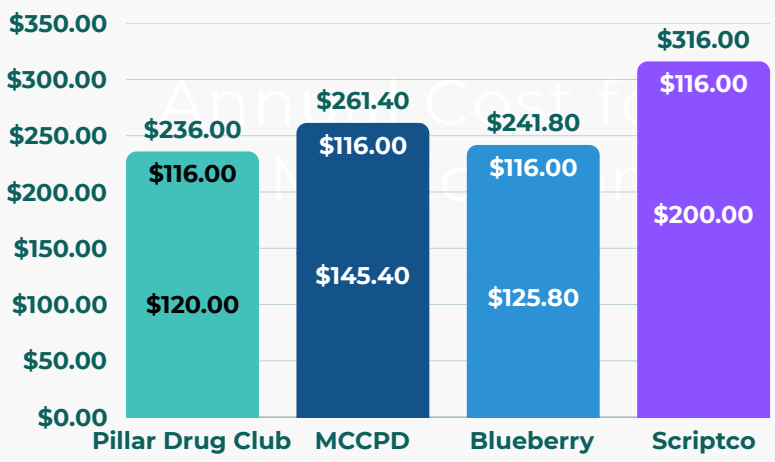
$60 upfront fee (annual) + $5 PEPM

Keystone Plan

Covers pharmacy services (labor + shipping) for >4 RXs

$120 upfront fee (annual) + $10 PEPM

Competitive Analysis



Cost of 4 RXs:

Mark Cuban: $261.40

Blueberry: $241.80

ScriptCo:$316

PDC: $236

Pillar Drug Club

Competition is no match with transparent, no-markup pricing model.
